**INDUSTRIAL & ENVIRONMENTAL SENSORS, INSTRUMENTS & CONTROLS SINCE 1969**

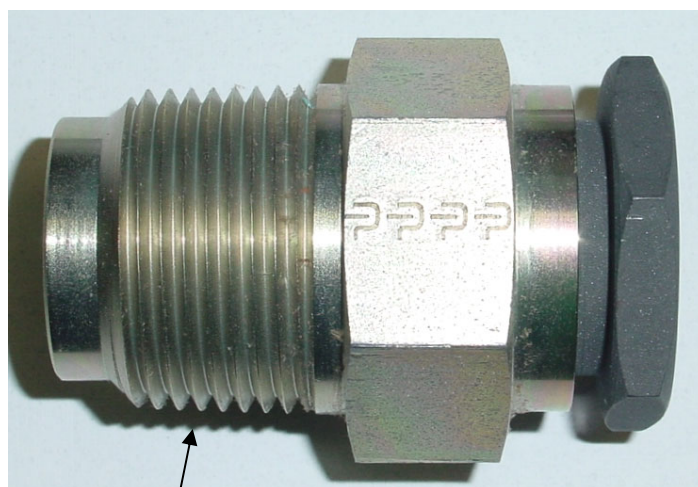

**HIGH PRESSURE MOUNT - MODEL HPM-350**  
**HIGH PRESSURE MOUNT FOR USE WITH OHMIC'S HS SERIES SENSORS**

**SPECIFICATIONS**

Pressure Range: 350 PSI  
Temperature range: -40 to +160°F  
Sensor Socket Base: Non-Warping Delrin  
Mount Material: Steel  
Mount Finish: Iron Oxide or Phosphate

Model HPM-350 with HS sensor

Model HPM-350

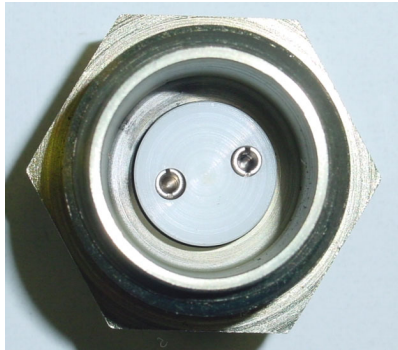

1/2 inch NPT

**High Pressure Mounting Fixture**

OHMIC'S High Pressure Mount the HPM-350 is a highly reliable fixture for applications where relative humidity measurements must be made in a high pressure environment, a vacuum, or any application where isolation from ambient atmosphere is required. These fittings work with OHMIC'S HS Series RH sensors.

The pressure mount has a one-inch male NPT thread for connection to any standard one-inch female NPT fitting. The entire housing is treated with a corrosion resistant finish for long life.

**WARRANTY:** All products manufactured by OHMIC Co. are warranted to be free of defects in material and workmanship for one year after delivery. Any equipment found to be defective within this period will be repaired or replaced free of charge.
